## **GRANTS AND FELLOWSHIPS RECEIVED:**

Grant # R01: HD087685 (PI: Tom Lyon)

Agency: National Institute of Child Health and Development, National Institutes of Health

Name of Grant: Facilitating Completeness in Children's Maltreatment Disclosures

Role: Consultant

3/15/2017-2/28/2022

\$2,921,325

DESCRIPTION: Child maltreatment is one of the most serious threats to children's well-being. However, substantial percentages of children either fail to disclose abuse or provide unconvincing disclosures. Through field observational research, laboratory experimental research, and field experimental research, the project aims to maximize children's capacity and willingness to disclose adult transgressions; and to identify optimal question types for eliciting details about time, number, and physical interactions. I serve as a mental health consultant, providing recommendations to the research staff on how to handle mental health crises when they arise in children being questioned about abuse.

Grant # 2017-VA-GX-0084 (PI: Lauren Maltby, Ph.D.)

Agency: California Office of Emergency Services, Sub-Award Grantee Children's Advocacy Centers of California (CACC)

Name of Grant: Emergency Response to Interpersonal Violence – 2020 Pandemic (CO) Program

Role: Principal Investigator/Awardee

05/19/2020-07/31/2020

\$31,383.00

DESCRIPTION: This funding was made available as a first step in combating the impacts of the COVID-19 pandemic on victim service providers in order to ensure the immediate safety of victims of interpersonal violence (domestic violence, sexual assault, human trafficking, and child abuse). I applied for and was granted funding for a new recording system and sound-proofing that doubled our interview room capacity and allowed MDT members to remotely view and participate in the MDT, thereby complying with social distancing guidelines. Doubling our room capacity also helps us prepare to meet the demand for forensic interviews that is anticipated when schools re-open and referrals are generated in higher numbers.

Grant # APSAC-1 (PI: Dave Corwin, Tasneem Ismailji)

Agency: California Office of the Surgeon General (CA-OSG) and Department of Health Care Services (DHCS)

Name of Grant: ACES Aware: California ACEs Academy

Role: Consultant

06/30/2020-06/29/2021

\$200,000.00

DESCRIPTION: Under my leadership as President, CAPSAC partnered with two national organizations (American Professional Society on the Abuse of Children and Academy on Violence and Abuse) to apply for funding from the California Office of the Surgeon General in order to train California Medi-Cal providers on the importance of screening for Adverse Childhood Experiences (ACEs) in primary care settings. Our particular project is focused on six regions in California, and for each region we provide online, interactive webinars focusing on topics that key stakeholders have requested. We then provide smaller group training in a learning collaborative format. We also provide on-going access to networks of care, helping to link medical providers with mental health care providers.
